

# The NSW Rural Fire Service and The Nature Conservation Council

## In conjunction with Watershed Landcare

*Invites you to the*

### **Bocoble -Triangle Swamp Hotspots Fire Management Workshops**

Do you have bushland on your property and want to:

- Create your own property fire management plan?
- Know when you are allowed to burn?
- Understand and manage your fire risk?
- Build on your knowledge of burning, the influence of weather and vegetation types?
- Gain hands on experience preparing and conducting a burn on a local property?
- Find out how Watershed Landcare can help?

If yes, this free workshop series is for you.

The workshop series will be held at Mullamuddy on:

**Day 1: Thursday 22nd February 2018**

**Day 2: Thursday 22<sup>nd</sup> March 2018**

**To register** for the 2-day workshop type this URL into your web browser;

<https://hotspots-bocoble.eventbrite.com.au>

For further information please contact either:

- Bruce Hansen RFS Hotspots Officer on (02) 8867 7972; [bruce.hansen@rfs.nsw.gov.au](mailto:bruce.hansen@rfs.nsw.gov.au) or
- Inspector Greg Freeman at Cudgegong Zone FCC (02) 6372 4434

**Numbers are limited; so please RSVP early to guarantee a place.**

### **The Hotspots Fire Project**

The Hotspots Fire Project is a NSW education program which provides landholders and land managers with the skills and knowledge needed to actively and collectively participate in fire management planning and implementation on their properties for the protection and enhancement of biodiversity conservation.

For more information about the Hotspots Fire Project, please visit [www.hotspotsfireproject.org.au](http://www.hotspotsfireproject.org.au).
